

RAK Ports Training Institute now offers the following training course:

Authorised Gas Tester

This 1 day course is designed to meet the requirements of personnel working onshore testing for toxic and flammable gases, oxygen deficiency and oxygen enrichment.

Successful candidates will demonstrate an understanding of the knowledge and skills required to perform gas test surveys for confined space entry and hot work permits as well as conduct gas leak investigations.

The course covers:

- *Responsibilities*
- *Properties and hazards of gases*
- *Safe working practices*
- *Working within a permit to work system*
- *Methods of detection*
- *Types of tester and their usage*
- *Gas testing for confined space and hot work permits*

RAK Ports certification will be given upon successful completion of the training course valid for 2 years.

To enquire about course fees or to know more about the training and certification process and to see how we can help, please contact RAK Ports Training Institute on the following numbers or e-mail:
