

RAK Ports Training Institute now offers the following training course:

Maritime Oil Spill First Responder

A 1 day course of theory and practical demonstrations to identify and understand the causes of oil pollution and general response techniques and an overview of offshore and onshore clean up procedures.

Based on the MCA level 1P and 2P and IMO level 1, this MEMAC approved training covers the following:

- *Properties and behaviour of an oil spill*
- *Hazards to human health and the environment*
- *Types of booms and skimmers and their deployment*
- *Dispersants and Absorbents and their uses*
- *Oil spill control and clean up*

Ideal for tactical response teams working in ports, harbours and marinas as well as off shore oil terminals who will be the first to respond to any oil spill at their facilities.

A certificate of completion valid for 3 years will be issued at the end of the course to all successful candidates.

To enquire about course fees or to know more about the training and certification process and to see how we can help, please contact RAK Ports Training Institute on the following numbers or e-mail:
