AL JAZEERA PORT

DETAILS OF RATES AND CHARGES AS OF 9th FEBRUARY 2021

STATUTORY BASIS FOR CHARGES

THE AUTHORITY TO RAISE CHARGES

The authority to charge “ship, passenger, cargo and other dues” as considered “fit” is vested in the board of Al Jazeera Port by the Ras Al Khaimah (RAK) Ports Act No.9 of 2008.

THE POWER TO COLLECT CHARGES RAISED

By virtue of the RAK Ports Act No.9 2008, the Saqr Port may recover rates payable to them in respect of a ship by distraint and sale of the ship and its tackle and in respect of any goods by distraint and sale either of those goods or any other goods held on harbour premises belonging to the persons liable for payment of the dues.

PAYMENT TERMS

Payment due within 30 days of the date of demand/invoice unless otherwise indicated. Thereafter interest will be charged at 2% per month PRO-RATA. The Port Authority reserves the right to demand full payment prior to departure.

CHANGES TO TARIFF

Al Jazeera Port reserves the right to alter/modify the tariff within, giving a notice period of seven (7) days only.

VALUE ADDED TAX

All rates and charges contained within this tariff and any additional charges made by the Port Authority are listed exclusive of Value Added Tax (VAT). VAT will be added as the Federal Decree-Law No (8) of 2017 on Value Added Tax, and under the associated Executive Regulations, as applicable.

A. PORT INFORMATION

Port Description

- Introduction.** Al Jazeera Port provides a complete range of maritime and shipping services. The main activities are Dry Docking, Ship Repairing, Marine Operations, Agency Services, Cargo Handling and Warehouse Storage. HEALTH & SAFETY GUIDELINES

i. Personal Protective Equipment (PPE)

1. All visitors to Al Jazeera Port must be equipped with suitable PPE which should be used at all times as required. PPE should be fit for purpose and used only for the purpose for which it was designed.

Minimum PPE requirements:

- a. HI-Visibility Reflective Vest.
- b. Safety Shoes/Boots – Note: No other form of footwear is acceptable within the port.
- c. Life Jacket (If working on a vessel or near the quay/water's edge).

Additional advisable PPE requirements:

- a. Hard Hat (This must be worn when in the vicinity of **ANY** lifting operation).
- b. Eye Protection/Safety Glasses (Due to cargoes handled, there may be sand/dust in the air).

Note: Failure to comply with the above may result in immediate removal from the port.

ii. Hot Work

1. A 'Hot Work Permit' is required prior to all hot works such as cutting, grinding, welding etc.
2. All requests to carry out hot work on vessels in Al Jazeera Port, or on Al Jazeera Port property, should be directed to the Health & Safety Officer or, in his absence, the main office/management. Along with method statement and risk assessment, the Health & Safety Officer will assess the application and ensure that it is satisfactory. If all is in order and no factors exist to make the proposed hot work dangerous then the permit will be authorised and returned to the vessel/applicant.
3. The authorised/refused permit will be returned to the applicant. A refusal will be notified as soon as possible giving the reason for the refusal. An authorised copy of the permit must be received by the vessel/applicant before hot work can commence.
4. It is expected that those in charge of the operation on board a vessel will carry out the necessary risk assessments and take all necessary precautions. To assist in this there is a 'Check List' which would/should have been supplied to the applicant along with the blank permit/application. If outside circumstances make the proposed Hot Work unsafe then permission may reasonably be postponed or denied by AJZP at any time.

'FIRE WATCH' Post Hot Works inspection confirmation to be completed no sooner than 30 minutes after the completion of Hot Works. This section of the permit must be signed, dated and returned to the authoriser of the permit in all cases.

Note: Failure to return this Post Hot Works inspection confirmation may result in the refusal of subsequent applications.

iii. Lifting Operations

1. It is a requirement at Al Jazeera Port that prior to any and all lifting operations within the port the following documents are provided for inspection by the Health & Safety Officer/Port Management:

- a. **Lift Plan:** The lift plan is intended to clearly identify the competent person planning the lift, the lifting operation to which it relates with step-by-step instructions for carrying out the lift, the equipment required, and the activity assigned to each person.
- b. **Risk Assessment:** Every lifting operation will be risk assessed by the competent person before the work begins. The competent person will ensure that appropriate controls are in place for those hazards identified in the written risk assessment such that the risks are managed as an integral part of the lift plan.
- c. **Method statement (Scope of Works):** The competent person must begin the planning process by determining the scope of work – defining what is to be done, who should be involved, how it will be conducted. This may require an initial lift plan, sketches, notes etc. If additional technical support is required, it should be obtained before proceeding and a cold work permit should be issued for the operation.

iv. Diving Operations

1. Before any diving operations can take place in Al Jazeera Port the following requirements must be met:
 - a. Diving teams or companies may only dive with a specific Dive Permit obtained from the Health & Safety Officer (or PM).
 - b. Original qualifications, medical certificates, trade licence, insurance, risk assessment and method statement and first aid certificates must be viewed and copied to file, if not already held, in order to obtain a Dive Permit. Photocopies are not acceptable.
 - c. Dive team must contain of a minimum of five (5) persons:
 - (1) **Dive Supervisor** (must be a qualified diver)
 - (2) **Working Diver 1**
 - (3) **Working Diver 2**
 - (4) **Standby Diver** (suited, equipped and ready to enter the water if required)
 - (5) **Diver's Attendant**
 - d. Divers must be commercially qualified, have valid medical certificates and each dive team must have a minimum of two (2) First Aid Certificate holders.
 - e. For SDDE (Surface Demand Diving Equipment) should have full two way communications with the Dive Supervisor.
 - f. For SCUBA (Self Contained Underwater Breathing Apparatus) with full communications, one working and one stand-by diver is required but without full communications a second working diver will be required to be in the water.
 - g. In all cases communication is vital and contact must be established with Port Control prior to the commencement of a dive.
 - h. For diving in the vicinity of a ship, specific Risk Assessments will have to be completed. These may require the immobilisation of the vessel with the close co-operation of the Master.
 - i. Permission to proceed should be obtained from the Duty Port Controller who may also suspend the operation at any time according to operational circumstances.
 - j. Divers should be certificated in the use of any subsurface tools or equipment being used.

- k. In all cases the Permit to Dive Checklist, supplied with Permit, must be completed and signed.

v. Permit to Work

1. Al Jazeera Port operates a Permit to Work system for the following activities;
 - a. Hot Work.
 - b. Confined Space Entry (Gas Free Certificate).
 - c. Cold Work.
 - d. Diving Operations.
 - e. Excavation, Trenching and Ground Disturbance.
 - f. Mobile elevated working platform (MEWP)/Man riding basket (MRB).
 - g. Electrical work.
 - h. Working at height.
