

# **Agents Notification**

No. 05 of 2026 – 15 May 2026

**Sub: Marine Risk Surcharge (MRS)**

**To: RAK Ports Marine and Cargo Agents  
Vessel Masters, Ship Owners, and Operators**

As advised in previous correspondence, the Marine Risk Surcharge (MRS) will remain under continuous review. The fixed rate is as published in the RAK Ports Tariff, and the current variable rate remains unchanged at:

**AED 0.87 per GT**

This measure reflects the additional costs associated with enhanced maritime security protocols, increased insurance exposure, and the operational risk mitigation measures implemented to ensure the continued and uninterrupted continuation of marine services across all RAK Ports facilities.

Kindly note that, as per Agent Notification No. 04 of 2026 (dated 13 May 2026), the MRS will not apply to:

- Vessels calling at RAK anchorages; and
- Service vessels engaged in supporting vessels at anchorage.

Port Management regrets the necessity of passing on these additional costs and appreciates the continued understanding and cooperation of our customers and agents.

**Capt. Michael Magee**

Group Harbour Master RAK Ports
